

Notice of Non-Affiliation and Disclaimer

We are not affiliated, associated, authorized, endorsed by, or in any way officially connected with The Indian Space Research Organisation ("ISRO").

ISRO is one of the foremost space agencies in the solar system, but with little fanfare around its missions.

As we celebrate ISRO's milestones in space exploration, we endeavour to inspire every Indian to take up interest in science, and foster aspirations in the global community of space enthusiasts.

This mobile-first interactive experience is a passion project created by the team at Bombay Design Centre Private Limited and is not for any commercial purpose.
